

115-800

An AM label deactivator is a device used in retail stores to deactivate or disable AM (Acousto Magnetic) security labels that are placed on products. These AM labels are designed to prevent theft and are activated by a specific magnetic field at the store exit.

The AM label deactivator works by neutralizing or demagnetizing the tag, allowing the customer to leave the store without triggering the security alarm. The process is fast and efficient, taking only seconds to deactivate the label.

FEATURES

- Detect signal speed: 20cm/sec.
- Demagnetize height: 10cm
- Adaptable positioning in any area

TECHNICAL SPECIFICATION

Model No	115-800
	Desactivador electrónico de etiquetas AM
Technology	Acousto-Magnetic (AM)
Frequency	58Khz
Operating Voltage	110 ~ 220V / 50/60hz
Power Consumption	100W
Output Voltage	31VAC,15W; 6.5VAC , 5W
Temperature	- 10c to 55c
